Hi Camille,

Based on the photos and text in Neil's report (pages 7-9), the silt fence is in need of repair. Neil reached out to me this morning to let me know that Noel was hoping to install the new BMP system next week while the weather is good. I let him know that he still needs to submit the plan to you and Melody for review. Neil said that he would remind Noel about the written plan. We will hold off on conducting our monthly inspection until we hear more regarding their schedule to install their new water run-on containment system at Lots 9 and 10.

Thanks,  
Jessie

Hi Jessie and Kristen,

Based on this report, the site appears to be fine. I'm hoping with the dry weather that the vegetation can grow in more. I reminded Noel to provide a plan for the run-on issue. I also requested these reports on a weekly basis.

Thanks!

Hi

Here's the latest Inspection Report

Regards

On Mon, Jan 27, 2020 at 3:45 PM Camille Leung <[cleung@smcgov.org](mailto:cleung@smcgov.org)> wrote:

Hi Noel and Neil,

Noel, please provide an update on the plan to direct and contain the run-on. Neil, please send photos and your weekly inspection results.

Hope to hear from you all by tomorrow.

Thanks

Hello Neil and Noel,

Neil, as we discussed on the phone this afternoon, please submit a plan and drawing to Melody Eldridge (cc'd here) for the new proposed system for capturing run-on at Lots 9 and 10. Melody will need to review and approve of the plan. Please keep in touch with this email group about the status of the installation, so that we can schedule a site visit once it is complete.

Thanks so much,
