Dear Camille we have a certified water meter from Cal Water and have had one since we started this project. Please assure the homeowners that every drop of water we use is recorded and paid for by our company each month.

Hi Deke and Corrin,

You are welcome to ask Camille questions such as this one, though I'm afraid it would be best answered by the City/water district. It is my understanding that the contractor should be recording the amount of

water they are taking from the hydrant and compensate the water district accordingly. However, this is not something that my Department monitors or enforces.

Sincerely,  
Steve

Mr. Monowitz,

We understand we should not be bothering Camille.

A quick question -

When Nexgen (working for Mr. Chamberlain on Highland Estates) is using water – are there any meters or is he just taking the water from the city via the hydrant ?
