---

Hi Camille,

I went out to Highland Estates yesterday to conduct my weekly site inspection. Overall the site looked great, and I did not have any further action items for Bob. He had some laborers onsite cleaning up the BMPs the day before, so things were looking good.

Attached is my report from this week! They were not using the generator on Lot 11 when I was onsite, but its my understanding they are finished or very nearly finished with work involving the generator.

Thanks!
