

Thank you for sweeping the trackout on Cobblehill that we discussed last week. As we discussed this morning please address the following action items now that we are in the wet season, and grading will be starting soon:

Lots 9/10

- The silt fence on Lot 9 was removed for the installation of the Sewer Line, and the silt fence along the southern side of Lot 9 has been pushed over by earthwork along that edge. Prior to fine grading please repair/replace the silt fence along that side of the project.
- There are two large holes ~6 feet deep which have steep walls. Please place escape ramps in them to allow wildlife to escape from the holes.

Lot 11

- Silt fence on Lot 11 still needs to be replaced along the riparian boundary, and prior to fine grading.
- The wind barrier on the north side of Lot 11 was falling down and needs to be repaired.

Please let me know if you have any questions!

Thanks so much!

Hi Camille,

I conducted my weekly site inspection at Highland Estates today. There are still quite a few outstanding issues onsite, which Bob said that he would address. Attached is the inspection report which will be filled out during the first week of every month throughout the wet season, or in the event of a "Notice to Comply" notice.

Please let me know if you have any questions!

Thanks so much,

Jessie Henderson-McBean | she, her, hers
