Hi Melody,

I will let contractor know to schedule inspection with you. Subdivision PLN is PLN2006-00357

Thanks!

Thanks for re-sending Camille. Will try to get to them soon. They haven't gotten to any of their other division finals so we are definitely not the last item. The drainage systems are all listed as to be inspected by County (me). I was only called out last year for two retaining wall drainage systems at two of the three properties – I have never inspected the storm drain systems. They need to email me to schedule a time to inspect those systems – can you please let them know?

Also, can you tell me what the PLN case number was for the subdivision (e.g., the case that triggered C.3 status?) We like to include that on the O&M for reference.

Olivia, when you get a moment can you make NOM cases? The below should be cloned, I think...

- BLD2016-00160 (2185 Cobblehill) – Lot 9
- BLD2016-00158 (2184 Cobblehill) – Lot 10
- BLD2016-00159 (88 Cowpens) – Lot 11

This is based off the old template so the MRP permit info, "NPDES Planner" and the other standard changes between the two templates need to be made. I will check too.

Thanks,  
Melody

FYI, Applicant is shooting for a mid-December final.... So we need to finish these up so they don't hold up final

Hi Olivia and Melody,

I received these O&M Agreement in hard copy (years ago) and have converted to edit-able PDF docs. Applicant is highly disorganized and I've asked for soft copies to no avail.

For the edit-able PDF, I believe you can change and add words in the PDF, both to Agreement and to the Maintenance Plan attachments. If that works, that will be easier than creating new word docs.

Olivia, please compare this with the O&M Agreement template to see if any major changes were made. Otherwise, I think this just needs additional project info in the title/header, etc.

Houses are close to final, so wanted to get this moving along.

Thank you!
