Hi Bob,

It was nice to see you onsite this morning. Thank you for talking through the upcoming schedule with me. As we discussed onsite this morning, please address the following action items ASAP:

1. **Please re-install silt fence along the eastern border of Lot 9 to ensure that dusky-footed woodrat nests are protected during fine grading. This is a top priority – please work with Tay to ensure that fencing is adequate, or a biological monitor is present to oversee work in proximity to these nests per the MMRP.**
2. Please re-install silt fencing along the southern border of Lot 9 prior to the next rain event.
3. Please sweep Cowpens Way as sediment has been left behind from utility work in the street.
4. Re-install orange snow fencing to protect trees along the west side of lot 9.
5. Please repair silt fence on the east side of Lot 11, which has been damaged by staged materials.
6. Completely cover the utility pit in the lawn of 2189 Cobblehill Pl. This is an ongoing issue and should be addressed immediately.

If you have any questions about these items please feel free to call me.

Thanks so much!
